

## “WALK AS ONE” WORSHIP MUSIC PACK #4 - CONTENTS

The Centre for Music, Liturgy and the Arts are pleased to introduce the second of our new worship music packs for churches. While many churches and leaders purchase music books, many wonderful songs in the books lie undiscovered. This initiative provides an affordable way for churches to learn and play new music, with or without musicians.

The “Walk as One” songbook was published in 2022. The Worship Music packs provide a way for all churches, including songbook owners, to listen, learn and sing this excellent collection of songs.

Each music pack contains resources for 5 songs from the book. A new pack will be introduced every 2 months in 2024 – March, May, July, September, November.

Those who subscribe to all five packs will receive a bonus 4 songs during the year.

For each of the five songs in the music pack, you receive these digital resources

- A copy of the sheet music score from the “Walk as One” songbook (PDF)
- An audio recording of the song (high quality m3)
- A plain Powerpoint file (white text on black)
- A colour Powerpoint file (white text on coloured image)
- A lyric video (audio recording with song lyrics)
- A plain text version of the song lyrics (for inserting into presentation software or printed orders)

The songs remain copyright to the songwriters unless otherwise specified. The CMLA is a music publisher, not a licensing body. This means that any reproduction of these files and recordings is subject to any licensing agreements held by the authors. Given that not all authors have licensing agreements, the CMLA is providing you with licensing information on their behalf.

We recognise the range of practices involved in preparing and leading worship in terms of copyright, and we ask that you treat both the authors and the publisher fairly. In particular, the purchase of these resources does not entitle you to further reproduce or distribute them beyond your congregation or institution.

Any online live streaming (such as Facebook Live) or online hosting which can be accessed after the event (such as on a website, Youtube, or Facebook) are subject to the authors’ licensing agreements as noted below. In providing this information, the CMLA is passing on information on behalf of the authors, and not acting as an agent for them.
